Perspective Plan

- To introduce new UG,PG and research programs.
- To introduce career oriented courses, value added courses, diploma courses,skill based education
- To make improvement in infrastructure facilities like construction of more class rooms and laboratories
- To acceleration of e-resources strategies in TLP and to adopt and use the online learning methods
-

Case study: Digitization in Administrationand Academics

- ❖ **Administration**: As we are running partial management information system (MIS), most of the administrative work is circulated through paper media. We have been using e-medias like **SMS, whatsapp and e-mails** for information exchange. LAN and fibre optics system is used for internal and external information sharing.**Tally** and "**Biyani technology software**" are used for financial matters. UGC and DST funds are utilized by the college through **PFMS.**

- ❖ **Academic:** All the examination forms are filled at the facility centre by using college **ICT facilities.** Exam hall tickets are downloaded and forwarded to the students before the exam schedules. **SRPD procedure** is adopted by the college for question paper. After the evaluation of answer sheets, the marks of the students are sent to the university through **SUK portal.**Students take advantage of library facility like**OPAC, INFLIBNET, Techno-Arv, Shodhganga, NLIST** program. The college has you tube channel**https://www.youtube.com/channel/UCvgbZfGF5Rk4HXGdLW0uguQ/videos**
