Botanical Excursion to Koyna, Chiplun and Dapoli

22nd and 23rd April, 2022

As a part of B.Sc. II Botany syllabus, the department of Botany has organized botanical excursion to Koynanagar, Chiplun and Dapoli on 22nd and 23rd April, 2022. A total 81 students and 06 teachers were participated in this study tour. The objective of study tour was to familiarize the students with the flora and ecology of the konkan area of Western Ghats of Maharashtra and also know the Agricultural University botanical gardens. We started our journey from central bus stand of Jaysingpur at 7:10 am. *via* Jaysingpur- Hatkanaglae- Karad- Koyna- Chiplun-Harne Bander-Dapoli.

The distance Between Jaysingpur to Koyna Dam is 142 Km. We have reached Koynanagar at 12:30pm. Firstly, we visited Nehru garden, Koynanagar. This garden is built in the memory of Late Pandit Jawaharlal Nehru, the first prime minster of independent India. This is one of the famous gardens in the Western Ghats region of Maharashtra. The panchadhara Dam or Panchadhara Ghumat reminds us at panchashil principles of pandit Nehru. This garden is also in the Vicinity of koyana Dam. After visiting to garden we all attended short film- Koyana dam Yashogatha. We collected information about Koyna dam. The main purpose of the dam is hydroelectricity with some irrigation in neighboring areas. Today the Koyna Hydroelectric Project is the largest completed hydroelectric power plant in India having a total installed capacity of 1,920 MW. Due to its electricity generating potential Koyna river is considered as the 'Life line of Maharashtra'.

B. Sc. II
Study tour report- 2021-22

Introduction:

As per syllabus our Zoology department arranged study tour of B. Sc. II to visit Koyana Nagar, Chiplun and Dapoli. The main motive behind this tour was to explore animals in their natural habitat. The study tour was headed by Dr. S. R. Patil, and Miss. S. T. Patel. As per the plan tour was arranged on 22nd and 23rd April 2022. We all gathered at Jaysingpur bus stand on 22nd April 2022 at 06:00 AM and departure the Jaysingpur exactly at 07:10 AM. After travelling about 5 hours we reached Koyana nagar which was our first destination. The distance between Jaysingpur to Koyna dam is 142 Km. We have reached Koyna nagar at 12:30 PM. We all visited Nehru smruti Uddyan, Koyna nagar. This garden is built in the memory of Late Pandit Jawaharlal Nehru, The first Prime minister of Independent India. This is one of the famous garden in Western ghat region of Maharashtra. The Panchadhara Ghumat reminds us Panchashil principle of Nehru. Here we observed a damselfly. Patil sir explained difference between dragonfly and damselfly. We also observed different varieties of butterflies. On the same place we listened calling of white cheeked barbet. This bird is endemic to Western Ghats and adjoining hills. We visited Koyana Dam Yashogatha center where we watched a documentary on Koyana dam and its history and construction. In this documentary details of Koyana dam was elaborated. The main purpose of dam is generation of hydroelectric power.

After lunch, we left Koyana Nagar and reached Chiplun. Here our plan was to visit D. B. J. College. Exactly at 4.00 PM we entered in Department of Zoology, D. B. J. College. In this department Dr. Babar sir introduced their faculty members and also given introduction to the museum. In this museum stuffed animals were arranged in systematic manner. Some of the

animals were also preserved in formalin. Animals from this museum were collected and maintained since 1964.

In this museum we experience a marvelous feel by observing all types of animals including insects, reptile, birds and mammals. Birds like Steppe eagle, Bonelli's eagle, vulture, owl, Sea gull, sparrow, woodpecker, kingfisher, duck, sunbird, parrot, peacock, pigeon etc were stuffed. However reptiles like monitor lizard, various species of snakes like Russel's viper, Indian cobra, pit viper, hump nosed viper, green pit viper, bamboo pit viper, rat snake, coral snake, checkered keelback were also preserved. Finally Babar sir delivered a talk on scope and departmental activities run over there. We had a group photo with faculty members of that department. We departed from chiplun and headed towards Harne Bandhar .

Harne Bandar is 14Km from Dapoli. We reached there at 05:30 PM. We visited Harne bandhar where a huge fish market is situated. Various types of fishes like surmai, pomphret, Bombay duck, shark, Bangda were marketed. On the same way various types of prawns, crabs, , were also auctioned over here. Miss. S. T. Patel mam gave the detailed information of that fishes. The daily turnover of this bandhar is about 4-5 crore rupees. At the end of the day we stayed at the guest house of Dr. Sawant Krishi Vidhyapeeth (Kisan bhavan), Dapoli.

On the next morning, we visited Anjarle beach which is 24Km from Dapoli. During visit we have observed different jelly fishes, various types of crabs, star fishes. Here we enjoyed a lot. After this knowledgeable visit we returned back to Vidhyapeeth.

Dr. Balasaheb Sawant konkan Krishi Vidhyapeeth, formerly konkan Krishi vidyapeeth, is agricultural university at Dapoli in Ratnagiri district of Maharashtra, India. It was established on 18th May 1972 as Konkan Krishi vidyapeeth, and got its present name on 12th February 2001. In this university we visited various departments. Firstly we visited medicinal garden where various plant species and their uses in medical field was noted. In the same place nursery of medicinal plant is also situated.

Next to medicinal plants garden we visited Charak udyan. The concept of charak udyan is that on a single disease various plant parts would be used as medicine. In this charak udyan we observed various plant species and their respective healing diseases. In the same udyan we also observed a nest of paper wasp, bag worm and various birds Paper wasp is also a social animal in which the work is distributed among the casts.

After this informative two days visit we started our back journey at 3:30 PM. Finally we were back to Jaysingpur at 11:00 PM on 23rd April 2022. This zoological excursion was fruitful. We enjoyed this tour and also knew many animals in the nature.
