Organised By: Department of Chemistry

Year:	2021-22
Name of the Activity:	Certificate Course in analytical Instrumentation
Date:	2021-22
Venue:	DST-FIST and UG dept of chemistry
Co-ordinator:	Dr. R. S. Dhabbe
Organised for: College/class/staff	M.Sc.II Chemistry Students 2021-22
No. of Participants	18
Nature: (e.g. Academic, cultural, sports etc)	Academic
Objectives of the Activity	To encourage students for research and motivate them to work in chemical based company such as pharmaceutical company
Chief Guest/s or Resource Person/s	Dr. R. S. Dhabbe, Dr. S. R. Sabale
Short Report (in English)	18 students from M.Sc. II Analytical stream have participated and joined course in analytical instrumentation. They have completed course in 6 month duration, the course includes practical and theory lectures. The final written exam of MCQ type is also conducted and qualified students are awarded with certificate.
Outcome/Remark	Course was conducted successfully and students captured skill required to get job in pharmaceutical Industry

## Analytical Instrumentation for Quality Control and Assurance

### STRUCTURE OF SYLLABUS:

To be implemented from the academic year 2020-21

1. Title of the course: Analytical Instrumentation for Quality Control and Assurance

2. Skills to be acquired after completion of Course:

After successful completion of the Course, the student shall be able to acquire the following skills.

- 1) Basic knowledge of different departments and work culture in pharmaceutical company.
- 2) Prepare a design of outlay of work performed in pharmaceutical company.
- 3) Independent handling of different instruments.
- 4) Basic knowledge of terms used in submission to the different regulatory agency.

### Duration:

The duration of the Analytical Instrumentation for Quality Control and Assurance course will be of six months.

Medium of Instruction and Exam: English

The suggested credits for each of the years are as follows:

AWARD		Duration	Credits		
			Theory	Practical	Total
1	Certificate course in Analytical Instrumentation for Quality Control and Assurance	Six months	12	18	30

## *Karmaveer Kaushal Kendra*

Credits can be defined as the workload of a student in

1. Lectures
2. Practical's

The Syllabus of six month "Certificate course in Analytical Instrumentation for Quality Control and Assurance" has been prepared as per half yearly system, which will be implemented from Academic Year 2020-21. It has been prepared taking into consideration its importance in getting jobs in the industries as well as the guidelines of the syllabus of other Universities.

The Theory and Practical syllabus of the certificate course in Analytical Instrumentation in Chemistry is as follow:

- 1) Duration of course: Six-month January to June
- 2) Eligibility of course: students studying in B.Sc. or M. Sc.
- 4) Theory papers: One paper of 50 mark
- 5) Practical: One practical of 50 marks.
- 6) Nature of question paper

Question 1	Multiple Choice	10 questions	10 marks
Question 2	Solve any 4 out of 6	10 marks each	40
<b>Total</b>			<b>50</b>
OR			
Objective type	Solve 25 out of 25	2 marks each	50

**Practical:** 50Marks: Based on Experimental; Assignment; Oral; and task

**Standard of Passing:**

To pass the examination a candidate must obtain at least 40% (i.e 40 marks out of 100) in Theory and practical subjects.

### **Practical's:**

1. Complexometric titration of aluminium and magnesium from different commercial antacids
2. Analysis of milk of magnesia by acid base titration
3. HPLC-Determination of caffeine from coffee beans
4. HPLC- Effect of flow rate on the retention time
5. HPLC- Effect of mobile phase composition on resolution
6. Determination of theoretical plates, HETP, S/N ratio, Retention volume and resolution
7. Uniformity of weight of tablets or capsule
8. Qualitative determination of methanol percent in ethanol by FTIR techniques
9. Structural determination of primary or secondary or tertiary alcohols
10. Preparation of solutions and standardization as per IP/BP/USP
11. Technical and nontechnical group discussion
12. Interview skill and CV preparation
13. Calibration of pH meter
14. Calibration of Analytical Balance
15. Calibration of glassware's

## **1. Curriculum**

### **VISION**

To give practical & theory knowledge about bakery & confectionery products to students

### **MISSION**

To inculcate the knowledge of bakery

To improve economic status through bakery

To export quality bakery products in the National and International market

To stand in the global competition in the field of bakery

### **OBJECTIVES**

1. To train the students in production & processing of bakery products.
2. To make the students to understand the process of bakery food
3. To make them to learn the skills necessary for self employment in bakery industries.
4. To give maximum exposure to food quality, commercial bakery product quality, so as to get maximum returns in practice.
5. To make them to learn all the commercial parameters of raw materials for assessment of product quality.
6. To give employability and job opportunities in the public and private and govt. sectors.
7. To guide and give counseling to become entrepreneur.

Annual Report

2021-22

The main objective of Bakery & Confectionery Course is to train the students in production & processing of bakery products and to make them to learn the skills necessary for self employment in bakery industries, as well as to give maximum exposure to food quality, commercial bakery product quality, so as to get maximum returns in practice. A total 21 students were enrolled for this course during academic year 2018-19. The course was started in the month of august 2018. The time table was prepared for it & students got guidance from teachers. The examination was held in march 2019 and all students have passed it successfully & each of them got certificate for the said course. All 21 students completed their course work successfully.

# Plant Diversity of Jaysingpur College, Jaysingpur

*Anekant Education Society's*

**JAYSINGPUR COLLEGE JAYSINGPUR**

## Introduction

The biodiversity of an area is important to understand the diverse ecosystem and niche. The diversity is the variety and variability of organisms on the earth. It includes variations within and between species present in particular ecosystems. The diversity in plants brings enormous benefits to mankind from direct harvesting of plants for food, medicine, fuel, construction materials and other uses to aesthetic, cultural, recreational and research values.

The “flora” of any given region is usually explained in biological terms to include the genus and species of plant life, their preferred growing habits and their connection to one another in the environment as well.

The documentation of local flora means to make an organized collection or record by describing the morphology and number of a particular plant species at a given area and a particular time. The floral study is a study we use to describe the variety of plant species in a specific area of a country.

The present study deals with the documentation of the floral diversity within the College campus. The Jaysingpur College, Jaysingpur is situated in the heart of Jaysingpur city and has quite an impressive amount of plant diversity, including both monocotyledons and dicotyledons. The various trees and bushes associated with the field serves as a roosting place of the different species of birds at different times of the day.

## Geographic Location and Climatic Conditions

Jaysingpur College, Jaysingpur was established by Anekant Society way back in 1964 with the inspiration from the blessings of Saint Late Samantbhadra Maharaj. The college is affiliated to the Shivaji University, Kolhapur. The college is government funded as per provisions of the rules of grant-in-aid scheme as operative in Government affiliated colleges. It is creditable for the college to start some, self-financing courses with a view to augment financial sources and also to provide job-oriented education to the students. It got recognition from the University Grants Commission under 2(f) in March 1982 and 12 B in June 2007. Its latitudinal extent varies from 16.770794 N, 74.556805 E. The college campus include Botanic garden, biodiversity garden, Butterfly garden, and medicinal plant Garden. The botanical garden is situated near the office building and includes a diverse flora.

The Department of Botany has taken initiative in assessment of plant diversity in campus of Jaysingpur College, Jaysingpur. The biodiversity committee recorded a total 15 individual plants were identified in college campus. During this assessment we found that a campus has rich plant diversity which includes 204 genera and 264 species of angiosperms plants.

## Botanical Garden

The biodiversity centre and butterfly garden is situated at the left side of entrance gated of college. The butterfly garden is a resting place for various butterfly species.

## SUMMARY

- The College has biodiversity rich campus which includes, ‘Nakshatra’ Botanical garden, Biodiversity centre and medicinal Plant garden, and Butterfly garden.
- The botanical gardens consist of medicinally and economically important horticultural crop plants
- The college campus consists of 80 angiosperm families.
- The present study revealed that, the 80 plant families include about 207 diverse genera and total 271 species.
- During survey a total of 1556 were reported from Jaysingpur College, Jaysingpur Campus.

# Recommendations

Key recommendation for improving campus environment:

- The plant species must be protected from predators
- The college should focus on plantation of more native plant species
- The more efforts should be taken for plantation and conservation of rare, endemic and endangered plant species.
