The practice- "Empowering Futures: Multi-Skill Training at Jaysingpur College with SMART and FICSI Initiatives."

The objective-The goal is to provide students with comprehensive skill development training, boosting employability and contributing to the larger goal of developing a competent workforce. Integrating SMART and FICSI at Jaysingpur College corresponds with this goal, equipping students for a variety of professional jobs.

The context-Spandan Education Society, a division of Sharanprabha Bahuuddeshiya Sanstha, is a registered SMART training center, offering courses with five different roles. Jaysingpur College, a Kolhapur district member, engages with FICSI on comparable training programs under the PMKUYA Scheme.

Evidence of success -Accreditation certificates authenticate program completion, attendance papers demonstrate student participation, on-field images reflect practical application and skill improvement, and fund distribution follows government guidelines.

Problems encountered and solution- Due to the limited initial infrastructure, improved facilities for practical training were required. Early on, logistical issues in resource allocation for equitable distribution occurred. Strategic planning was required for successful communication and promotion, as well as encouraging student participation. Infrastructure was improved as a result of collaborative stakeholder initiatives. A methodical resource allocation strategy assured optimal usage. Improved communication tactics, such as awareness campaigns, increased participation.

Evidence of Success Best- Practice -I
